High Quality, Beautifully Designed, Seating Solutions.

We work with architects, theater consultants, and anyone else in need of fixed seating, to design, manufacture and install fixed seating solutions that fit your timeline, budget, and space.

We’re highly skilled at managing projects from the initial design phase, to custom production, to on-time delivery and installation.

We’ll help design a layout that’s perfect for your space, your project, and your audience. We’ll also help you clarify your specifications and expectations for the project, to ensure that you come away with a finished project you love.

Take a look at our seating and pricing. If you have any questions, want to talk about customizations, or need expert help with your project, don’t hesitate to reach out.

Here for you,

-Phil, Mario, & Bill
Founders of Theatre Solutions Inc.
We’d like to think that high quality seating can still be affordable and attainable for your project’s budget. To that end, we strive to manufacture our seating with the highest quality possible and offer a lifetime warranty on many of our chairs.
The Teatro.

The Teatro series offers elegant detailing, exceptional comfort and unmatched durability. The availability of fully-upholstered seat and back cushions or outer wood veneer panels makes this an extremely versatile chair. The Teatro is one of the few chairs available with power/data ready frames or air diffuser pedestal frames designed to distribute heating and air conditioning.

Features

- Gravity seat mechanism insures that the seat will always quietly return to a consistent vertical position.
- Hardwood armrests are available in a variety of species and finishes.
- Durable powder-coat finish is standard on all steel components.
- Flush mounted floor attachment hardware is standard.
- Standard spacing is 19”, 20”, 21” and 22” c.c. of frames (19” not available with tablet arm).
- Lifetime Warranty is standard on the Teatro.

Models

**Teatro A1**
Equipped with inner upholstered seat and back cushions, as well as outer wood veneer panels (with finished plywood edges) for acoustical quality and refined appearance. Customized detailing on the backrest upholstery of the outer wood panels is optional.

**Teatro C1**
Combines the beauty of a wood veneer outer back panel with the economy and warmth of a fully-upholstered seat. The seat is equipped with a slip-on zippered fabric cover.

**Teatro C3**
Features fully-upholstered seat and back cushions for an elegant and warm appearance. Fabric slip-on covers are equipped with a zipper for easier on-site replacement.
The Lyric Chair.

Lyric presents a clean and simple aesthetic design while offering a rugged internal construction with molded covers that provide protection to the outer surfaces of the seats and backs. The seats and backs are composed of sturdy steel frames that are fitted with suspension webbing and high-density polyurethane foam cushions which provide the utmost in comfort and durability. A slim chair envelope permits the architect to maximize capacity without sacrificing comfort or proper egress space.

Features

- Gravity seat mechanism insures that the seat will always quietly return to a consistent vertical position.
- Durable powder-coat finish is standard on all steel components.
- Seat and back covers are molded of impact resistant polypropylene.
- Armrests are molded of durable high-density polyethylene.
- Innovative molded seat hinge insures quiet operation and requires no maintenance.
- Unique floor plate design conceals anchoring bolts and provides a clean appearance.
- Removable seat and back covers are standard and allow for easier on-site replacement.
- Unique slim profile of only 17-1/2” allows greater chair capacity.
- Standard spacing is 19”, 20”, 21”, and 22” c.c. of frames.
- Lifetime Warranty is standard on the Lyric.

Models

Lyric D1
Combines the beauty of a wood veneer outer back panel with the economy and durability of an injection-molded polypropylene seat shell. The inner seat and back are upholstered cushions. The seat is equipped with a removable fabric cover.

Lyric D4
Upholstered seat and back cushions with outer injection-molded polypropylene covers. The seat and back are equipped with removable fabric covers.
The Acclaim.

The Acclaim offers a functional and subtle elegance with simple but pleasing lines. A thin common frame allows for greater size and increased comfort. A slim chair profile permits the architect to increase capacity without sacrificing comfort or proper egress space. The Acclaim is available with fully-upholstered seats and backs or with an optional veneer back panel. Removable fabric covers are standard for easier maintenance.

Features

- Gravity seat mechanism insures that the seat will always quietly return to a consistent vertical position.
- Hardwood armrests are available in a variety of species and finishes.
- Durable powder-coat finish is standard on all steel components.
- Flush mounted floor attachment hardware is standard.
- Removable, zippered seat and back covers are standard and allow for easier on-site replacement.
- Unique slim profile of only 15” (without tablet arm) allows greater chair capacity.
- Standard spacing is 19”, 20”, 21”, and 22” c.c. of frames (19” not available with tablet arm).
- Lifetime Warranty is standard on the Acclaim.

Models

**Acclaim C1**

Combines the beauty of a wood veneer outer back panel with the economy and warmth of a fully-upholstered seat.

**Acclaim C3**

Features fully-upholstered seat and back cushions for an elegant and warm appearance. Fabric slip-on covers are equipped with a zipper for easier on-site replacement.

The Prima Chair.

The Prima auditorium chair is the obvious choice when luxury and attention to detail are factors during the selection process. Ideal for the corporate training facility, museum, or an intimate theatre, the Prima offers a refined look, clean lines, and a feeling of stability and superior comfort. The Prima back is constructed with two inner back panels. The lower panel incorporates a lumbar cushion for extra back support. The solid leg panels give the chair a more substantial feel and the availability of a wider seat allow this chair to accommodate a greater range of users.

**Features**

- Gravity, bumpered seat mechanism insures that the seat will always return to a consistent vertical position.
- Leg support panels and integrated armrests are available fully-upholstered or in a variety of veneers and finishes.
- Durable powder coat finish is standard on all steel components.
- Back is available fully-upholstered. A top reveal, three-sided reveal or non-inset upholstery detail is available with the outer veneer panel option.
- Standard lumbar cushion.
- Double needle stitching on leather components.
- Standard spacing is 20", 21", 22", 23", and 24" c.c. (of leg panels)
- Lifetime Warranty is standard on the Prima.

**Models**

**Prima A1-U**
Equipped with inner upholstered seat and back cushions, and outer wood veneer panels with a finished plywood edge for acoustical quality and refined appearance. The Prima A1-U includes upholstered leg panels. Customized detailing on the backrest upholstery of the outer wood panels is optional.

**Prima A1-W**
Equipped with inner upholstered seat and back cushions, and outer wood veneer panels with a finished plywood edge for acoustical quality and refined appearance. The Prima A1-W includes veneer leg panels. Customized detailing on the backrest upholstery of the outer wood panels is optional.

**Prima C3-W**
Features fully-upholstered seat and back cushions for an elegant and warm appearance. The Prima C3-W includes veneer leg panels. Fabric slip-on covers are equipped with a zipper for easier on-site replacement.

The Planar Chair.

The Planar offers a functional and subtle elegance with simple but pleasing lines. A thin common frame allows for greater seat size and increased comfort. A slim chair profile permits the architect to increase capacity without sacrificing comfort or proper egress space. The Planar is available with upholstered inner seats and backs with outer veneer, laminate, or powder coated panels. A wide variety of back shapes are available to complement any type of interior design.

Features

- Gravity seat mechanism insures that the seat will always quietly return to a consistent vertical position.
- Hardwood armrests are available in a variety of species and finishes.
- Durable powder-coat finish is standard on all steel components.
- Flush mounted floor attachment hardware is standard.
- A variety of back shapes make this a uniquely versatile chair.
- Veneer, laminate, and powder-coated finishes are available on the outer seat and back panels.
- Standard spacing is 19", 20", 21", and 22" c.c. of frames (19" not available with tablet arm).
- Lifetime Warranty is standard on the Planar.

Models

Planar A1
Equipped with inner upholstered seat and back cushions, as well as outer wood veneer panels (with finished plywood edges) for acoustical quality and refined appearance. Customized detailing on the backrest upholstery of the outer wood panels is optional.
The Tier Chair.

The scale and posture of the Tier chair make it an ideal selection to meet the unique requirements of performing arts center private box patrons. Traditionally, specifiers of loose seating for the private boxes had only a choice between wood office visitor chairs or wood hospitality side chairs. The overall design, scale, and posture of these chairs never addressed the unique nature of this product area. The Tier chair specifically addresses the special needs of this high profile area which is critical to the success of today’s Performing Arts Center.

Features

- The shape and profile of the Tier chair mimic TSI’s Teatro fixed seating line. By combining these seating lines, the finish and appearance of the loose and fixed chairs will be complimentary throughout the concert hall.
- The seat and back angle provide the proper support for users when seated on the main level of the hall, as well as in the upper levels.
- The ergonomic design of the Tier chair takes into consideration the extended sitting period generally expected in a performance venue.
- TSI’s ability to customize the Tier chair gives theater planners an option to tailor this chair to the exact design theme of the hall.
- Options such as outer wood back panels, donor tags, and custom finishing make this offering complete.
We supply several models of courtroom chairs suitable for use in jury boxes as well as witness and litigant positions. Additionally, many of our jury chairs have matching fixed chair models that allow gallery seats to match the jury chairs. We’re also an alliance partner with Herman Miller, Inc., a recognized pioneer and global provider of office furniture since 1923. The collaboration unites the award-winning design and ergonomics of Herman Miller’s Aeron® and Caper® chairs with fixed jury bases from TSI to create courthouse chairs of unique design and function. Theatre Solutions maintains its established high level of service to include layout and design, project management, and product installation.
Acclaim Jury Seat.

TSI’s Acclaim Jury Base chair carries many of the same aesthetic features of the fixed auditorium seating counterpart. This synergy allows for the courtroom to carry the same design theme through the audience, jury, and witness seating.

Features

- Acclaim Jury Base chairs are mounted on a cast aluminum base with flush floor anchors, providing a clean, unobtrusive appearance.

- Silent 360 degree swivel memory return function is standard on the Acclaim Jury Base chair. A limited swivel mechanism is optional.

- The Acclaim is available with a tilt or non-tilt mechanism. The tilt version has a tension adjustment that allows users of all sizes to be properly supported.

- Four widths (19”, 20”, 21”, and 22”) are available to achieve a balance between occupant comfort and space limitations. Wider widths are optionally available.

- Welded steel frame.

- Fully-upholstered seat and back with optional outer wood veneer back panel for enhanced acoustics and additional protection.

- Hardwood armrests, and optional upholstered or veneer end panels.

- The Acclaim Jury Base chair is supported by a full five-year warranty.
Herman Miller’s Caper chair is an ideal solution for jury and classroom environments. The biomechanical tilt mechanism synchronizes the movement of the seat and back of the chair. The molded flexible seat and back conforms to the body and distributes weight evenly. Air circulates through the perforations in the seat and back to keep the occupant comfortable by preventing body heat build-up. Seats are available with FLEXNET, a strong, breathable suspension material that enhances comfort and distributes weight evenly.

Features

- Caper Jury Base chairs are mounted on a cast aluminum base with flush floor anchors, providing a clean, unobtrusive appearance.
- Silent 360 degree swivel memory return function is standard on the Caper Jury Base chair.
- The biomechanical tilt mechanism synchronizes the movement of the seat and back.
- Perforated molded seat or FLEXNET seat are available.
- Caper meets CAL133 requirements.
- Chairs are available with fixed arms or armless versions.
- Black or metallic silver frames are available.
- 14 colors available for molded seats and backs.
- Caper chair is 100% recyclable and made of 21% recycled material.
- The Caper Jury Base chair is supported by a full five-year warranty.
Aeron Jury Seat.

Herman Miller’s Aeron chair has revolutionized the world of ergonomic seating by introducing users to the benefits of its unique Pellicle® suspension and Kinemat® tilt mechanism. The Aeron breaks new ground by providing advanced ergonomics and state-of-the-art design in a fixed seating environment. Aeron’s Kinemat tilt lets the body pivot naturally and simultaneously at the ankles, knees, and hips for smooth, proper support in any seated position. Aeron is the only chair with Pellicle suspension, a unique material that conforms to the body and distributes weight evenly over the seat and back for truly customized support. Air circulates through the Pellicle to keep the occupant comfortable by preventing body heat build-up.

- Aeron Jury Base chairs are mounted on a cast aluminum base with flush floor anchors, providing a clean, unobtrusive appearance.
- Silent 360 degree swivel memory return function is standard on the Aeron Jury Base chair.
- Pellicle suspension’s lightweight and breathable design distributes the user’s weight evenly over the seat and back of the chair. Three Pellicle patterns are available.
- The Kinemat tilt mechanism lets the body naturally pivot at the ankles, knees, and hips.
- The Aeron meets CAL133 requirements.
- Chairs are available with fixed non-adjustable arms or armless versions.
- Graphite, titanium, or polished aluminum frames are available.
- The Aeron Jury Base chair is supported by a full five-year warranty.

Learn More
Teatro Jury Seat.

TSI's Teatro Jury Base chair carries many of the same aesthetic features of the fixed auditorium seating counterpart. This synergy allows for the courtroom to carry the same design theme through the audience, jury, and witness seating.

Features

- Teatro Jury Base chairs are mounted on a cast aluminum base with flush floor anchors, providing a clean, unobtrusive appearance.

- Silent 360 degree swivel memory return function is standard on the Teatro Jury Base chair. A limited swivel mechanism is optional.

- The Teatro is available with a tilt or non-tilt mechanism. The tilt version has a tension adjustment that allows users of all sizes to be properly supported.

- Four widths (19”, 20”, 21”, and 22”) are available to achieve a balance between occupant comfort and space limitations. Wider widths are optionally available.

- Welded steel frame.

- Fully-upholstered seat and back with optional outer wood veneer back panel for enhanced acoustics and additional protection.

- Hardwood armrests, and optional veneer end panels.

- The Teatro Jury Base chair is supported by a full five-year warranty.
Forum Jury Seat.

Designed and manufactured by TSI, the Forum is a fully-upholstered chair with an inner shell that incorporates a waterfall front edge and lumbar support.

Features

- Forum Jury Base chairs are mounted on a cast aluminum base with flush floor anchors, providing a clean, unobtrusive appearance.

- Silent 360 degree swivel memory return function is standard on the Forum Jury Base chair. A limited swivel mechanism is optional.

- The Forum is available with a tilt or non-tilt mechanism. The tilt version has a tension adjustment that allows users of all sizes to be properly supported.

- Chairs are available without arms or with fixed non-adjustable self-skinned urethane arms.

- Optional fire-retardant chair meets CAL133 requirements.

- The Forum Jury Base chair is supported by a full five-year warranty.
Options & Finishes.

Cf Stinson and Theatre Solutions have entered into a cooperative program for pre-approved fabrics and vinyls. Contact TSI for pricing & availability. In addition to the pre-selected fabrics from CF Stinson, Theatre Solutions will consider the use of other fabrics. In this case, we strongly recommend that we be contacted before the final selection is made, so we may have a chance to determine the suitability of the fabric being considered in accordance with our upholstery methods.

Although the wood species you’ll see below are our standard, we have worked with most other woods and will consider working with any species required for a specific project. We’ll also match any of our wood to a stain finish identified by the Architect.

A relentless focus on quality & service.

We’re highly skilled at managing projects from the initial design phase, to custom production, to on-time delivery and installation. Our mission is simple: we’re committed to providing the highest quality fixed seating services in the world.

Testimonials

“Theatre Solutions, Inc. managed the project professionally and efficiently from design through installation, while remaining flexible with several construction schedule updates. The installation crew arrived on site as scheduled, starting layout and installation on the first day, with the crew remaining on the job until the installation was completed. Thank you Mario, staff and crew at Theatre Solutions, Inc. for the good work to make our project a success!”

- Brian E. Foshee, Director of Physical Plant at Rhodes College

"The chairs are beautifully crafted to our design and specifications. Theatre Solutions was uniquely positioned to provide a wealth of fixed seating experience along with an amazing sense of pride in craftsmanship."

- Len Auerbach, Theatre Consultants
